ABSTRACT

This report provides Colorado state summary tables and district reports of graduation rates, dropout rates, and suspension and expulsion rates for the Class of 1998. The Colorado graduate rate for the Class of 1998 is 80.1%, an increase of 1.6% points from the rate reported for the Class of 1997. This graduation rate represents all Colorado schools, including alternative schools. Thirty-four percent of all Colorado school districts had a graduate rate at or above 90% in 1998, a figure that was lower than that of 1995, when 38% of districts (66 districts) had a graduation rate at or above 90%. Female students continued to show a higher graduation rate than male students, and increases in graduation rate were seen for all ethnic groups, with the greatest increase for American Indian students and the smallest for White students. The dropout rate was 3.5% for the 1997-98 school year, a decrease of 0.1 percentage points from 1996-97. Approximately one fourth of the 1997-98 dropouts (23.5%) returned to school the following year. In 1997-98, 50,355 students were suspended from Colorado schools. Most of these students were male, and 57.4% were white. The vast majority were suspended for detrimental behavior. Some 2,085 students were expelled in the school year, with about 82% of these being male, and about 54% white. A question-and-answer section summaries information about graduates, dropouts, suspensions, and expulsions. (Contains 14 tables.) (SLD)

INTRODUCTION

This report provides state summary tables and district reports of graduation rates, dropout rates, suspension and expulsion rates.

A graduate is a student who completed locally-defined requirements for graduation from high school. If a student is not considered a graduate by the local board of education, then he/she is not included in the graduation rate calculation.

The graduation rate is a cumulative or longitudinal rate which calculates the number of students who actually graduate as a percent of those who were in membership and could have graduated over a four-year period (i.e., from grades 9-12). However, it may also include students, under age 21, who completed high school in three years, four years, or longer.

During the fall of 1988, a task force comprised of school district and Colorado Department of Education personnel recommended that the graduation rate calculation be based on information reported for the dropout data collection system. The dropout data collection system, implemented in the 1987-88 school year, provides pupil membership and transfer data by grade, school, and district. Schools with grades 7-12 are required to complete an end-of-year report which provides counts of students entering and withdrawing during the 12 month period July 1 through June 30.

The dropout rate is an annual rate reflecting the percentage of all students enrolled in grades 7-12 who leave school during the reporting period and are not known to transfer to other public or private schools. In accordance with a 1993 legislative mandate, beginning with the 1993-94 school year, the dropout rate calculation excludes expelled students.

The 1998 graduation rate is a four-year rate based on students reported by school districts who began 9th grade in the 1994-95 school year. The membership base used to calculate a high school's graduation rate includes students who transfer into the Class of 1998 and excludes students who transfer out of the Class of 1998. In addition, high schools can adjust their membership base for a student reported as a dropout during a previous school year if the high school has documentation that the student returned or transferred to another educational program.

Although the Department is able to report graduation rates for the Class of 1998 and for future graduating classes, it is not currently possible to track students who drop out from their graduating class but complete their education several years later.

Several school districts have initiated alternative education programs for students who have dropped out or are at risk of dropping out. For those districts that have alternative schools, a district graduation rate, completer rate, and dropout rate is calculated including and excluding the alternative school. This comparison enables the reader to evaluate the rates of the traditional school program apart from the total district rates.

GRADUATION RATES

The 1998 graduation raté is a four-year rate based on students reported by school districts who began 9th grade in the 1994-95 school year. The membership base used to calculate a high school's graduation rate includes students who transfer into the Class of 1998 and excludes students who transfer out of the Class of 1998. In addition, high schools can adjust their membership base for a student reported as a dropout during a previous school year if the high school has documentation that the student returned or transferred to another educational program.

- The Colorado graduation rate for the Class of 1998 is 80.1 percent. This is an increase of 1.6 percentage points from rate reported for the Class of 1997. The Class of 1995 had a 77.4 percent graduation rate.
- The graduation rate of 80.1 percent represents all Colorado public schools, including alternative schools. There are 68 alternative and second chance high schools in the state that address the educational needs of students who previously dropped out or are at risk of dropping out of school. These alternative schools not only impact districts' graduation rates but also the overall state graduation rate since they are serving more and more students. The number of graduates from alternative schools in 1995 was 1,102 students and in 1998 there were 1,198 graduates.
- Sixty school districts or 34 percent of all Colorado school districts had a graduation rate at or above 90 percent in 1998. This was lower than the Class of 1995 when sixty-six school districts (38 percent) had a graduation rate at or above 90 percent.

COMPLETER RATES

The Completer Rate is also a cumulative or longitudinal rate which calculates the number of students who graduate, receive certificates or other designations of high school completion. It is also calculated as a percent of those who were in membership and could have graduated or completed over a four-year period (i.e., from Grades 9-12).

- The completer rate for the Class of 1998 is 81.3 percent. Completers include graduates and students receiving other certificates or designations of completion from a Colorado public high school.

GED COMPLETERS

- According to information collected by the Adult Basic Education/GED (General Education Development) Office from GED testing centers, 7,793 students (65.3 percent of the test takers) received a GED during 1998.
- Of the 7,793 students receiving a GED, 4,572 (58.7 percent) were under 21 years of age; 1,875 (24.1 percent) were between 21 - 29; 926 (11.9 percent) were 30 - 39; 332 (4.3 percent) were 40 - 49 and 88 (1.1 percent) were age 50 or older.

ADULT COMPLETERS

- During the 1997-98 school year 26 school districts reported 539 adult completers (students over age 21) from their educational programs. Adults receiving a high school diploma numbered 116; other certificates of completion 3; and GEDs 420.

- The graduation rate for Class of 1998 is 80.1 percent, an increase of 1.6 percentage points from the 1997 rate of 78.5 percent and an increase of 2.7 percentage points from the Class of 1995 graduation rate of 77.4 percent.

- The graduation rate of 80.1 percent represents all Colorado public schools including 68 alternative schools. The number of graduates from alternative schools has increased 8.7 percent, from 1,102 students in 1995 to 1,198 students in 1998.

- Female students continue to exhibit a higher graduation rate than male students. The rate for both gender groups showed a slight increase from 1997 - 1.7 percentage point for male students and 1.3 percentage points for female students. The 1998 graduation rate of 83.2 percent for female students is 3.0 percentage points higher than the 1995 rate of 80.2 percent. For male students the 1998 rate of 77.0 percent is 2.3 percentage points higher than the 1995 rate of 74.7 percent.

- Graduation rates for all ethnic/racial groups showed increases from 1995. The greatest increase was for American Indian students and the smallest increase was for White students:

- The completer rate is also a cumulative or longitudinal rate which calculates the number of students who graduate and students who receive certificates or other designations of high school completion as a percent of those students under age 21 who were in membership in a Colorado school district program and could have graduated or completed.

- The completer rate of 81.3 percent for the Class of 1998 is 1.2 percentage points higher than the graduation rate.

- Completer rates are higher than graduation rates for all ethnic/racial groups; 3.6 percentage points for American Indian students, 0.9 for Asian students, 1.7 for Black students, 2.4 for Hispanic students, and 0.9 for White students.

- Completers for the Class of 1998 include: 35,794 who completed local board-defined requirements for graduation and received a high school diploma from a Colorado school district, 373 who received a G.E.D. (General Education Development) certificate after completing a program of studies in a Colorado school district, and 189 students who received certificates or other designations of high school completion, attendance or training from a Colorado school district.

DROPOUT RATES

The dropout rate is an annual rate reflecting the percentage of all students enrolled in grades 7-12 who leave school during the reporting period and are not known to transfer to other public or private schools. In accordance with a 1993 legislative mandate, beginning with the 1993-94 school year, the dropout rate calculation excludes expelled students.

- Colorado's dropout rate for the 1997-98 school year was 3.5 percent, a decrease of 0.1 percentage point from 1996-97.
- The total membership base for grades 7-12 was 344,714 and 12,063 students dropped out resulting in the rate of 3.5 percent.
- Of the 11,967 students reported as dropouts and the 1,211 students reported as expulsions at the end of the 1996-97 school year, 3,103 were reported as retrievals during the 1997-98 school year. This represents approximately one-fourth (23.5 percent) of the 1996-97 dropouts/expulsions returning to school the following year.

SUSPENSIONS AND EXPULSIONS

Colorado Law (22-33-106 C.R.S.) defines grounds for the suspension and/or expulsion of students from public schools. These include but are not limited to carrying, bringing, using or possession of a deadly weapon, sale of drugs or controlled substance; commission of an act which if committed by an adult would be robbery or assault; habitually disruptive student; disobedience or open and persistent defiance of proper authority; willful destruction or defacing of school property; behavior on or off school property detrimental to the welfare or safety of other pupils or school personnel; and repeated interference with a school's ability to provide educational opportunities to other students.

The 1995-96 school year was the first year information from all public schools was collected in a standard reporting format. School districts were requested to report number of students suspended and total occurrences of suspensions. A student suspended more than once during the school year is counted only once in the student count but each occurrence is included in the suspension count.

QUESTIONS AND ANSWERS ABOUT COLORADO DROPOUT RATES

Who Is Considered a Colorado Dropout? By Colorado law, a dropout is a "person who leaves school for any reason, except death, before completion of a high school diploma or its equivalent, and who does not transfer to another public or private school or enroll in an approved home study program." A student is not a dropout if he/she transfers to an educational program recognized by the district, completes a G.E.D. or registers in a program leading to a G.E.D., is committed to an institution that maintains educational programs, or is so ill that he/she is unable to participate in a homebound or special therapy program.

Who Is a Transfer? A student is considered a transfer to another district or educational program if the receiving school or program sends for the student's records, or if the sending district can document that the parent or legal guardian has provided information regarding the school or education program into which the student is transferring. This definition of a transfer is in accordance with the Public School Finance Act of 1988, 22-53-207(3), C.R.S.

What If a Student Just Disappears? A student who disappears from school is considered a dropout unless the student transferred to another educational program.

What Is the Dropout Rate? The Colorado dropout rate is an annual rate, reflecting the percentage of all students enrolled in grades 7-12 who leave school during a single school year. It is calculated by dividing the number of dropouts by a membership base which includes all students who were in membership any time during the year. In accordance with a 1993 legislative mandate, beginning with the 1993-94 school year, the dropout rate calculation excludes expelled students.

Can the Dropout Rate Be Multiplied by Four to Find Out How Many Students Drop Out Over the Four Years of High School? No. The dropout rate is an annual rate only. It is not statistically valid to simply multiply the annual rate by four to find out how many students dropped out during high school. The graduation rate, however, provides a measure of how many students completed graduation requirements.

Can a Student Drop Out More Than Once? How Does That Affect the Annual Dropout Rate? Some students have a pattern of dropping out and returning to school several times before they either graduate or drop out and do not return. In the state reporting system, a student is counted as a dropout only once within a given reporting period (i.e., from July 1 through June 30). However, if a student drops out during one school year, then returns to school the following year and drops out again, he/she will be counted in the dropout rate two years in a row.

How Valid Are Colorado's Dropout Rates? The Colorado Department of Education provides definitions, guidelines, and training regarding the proper procedures for identifying and reporting dropout statistics. The data are edited and screened upon receipt and a turnaround document with the calculated rates is returned to the district for verification. In submitting the data to the state, each superintendent signs an assurance that the district has followed the required procedures.

How Are Dropout Data Reported? Dropout data are reported annually to the Department by Colorado school districts. Dropout data are collected for grades 7-12, by school building and by district. Data are reported separately by sex, ethnicity/race, and grade level of students.

QUESTIONS AND ANSWERS ABOUT COLORADO GRADUATION RATES AND COMPLETER RATES

Who Is a Graduate? In Colorado, local school boards are responsible for establishing the requirements for high school graduation. There is no statewide definition.

Do All Colorado School Districts Have the Same Requirements For Graduation? No. Each local school board defines graduation requirements for its district. These vary from district to district. The state considers a graduate to be any student who has met the graduation requirements of his or her local school district.

Are There Students Who Complete 12 Years of School and Do Not Graduate? Yes. Some districts award certificates or other designations of high school completion or attendance to students who do not complete the standard high school graduation requirements. Also, some students who do not complete the traditional high school graduation requirements do successfully achieve a general equivalency certificate (GED).

Who Will Be Included in the Calculation of Graduation Rate? Two types of rates are calculated by the Department for school districts and for the state: Graduation Rates and Completer Rates.

> **Graduation Rates.** Graduation rates are calculated based on high school graduates only. A graduate is a student who completed locally-defined requirements for graduation. If a student is not considered a graduate by the local board of education, then he/she is not included in the graduation rate calculation.
>
> **Completer Rates.** Completer rates are calculated based on all students who are graduates, plus those who are not considered graduates but receive another certificate or designation of high school completion.

What Happens to Students Who Graduate in the Summer? Summer graduates are included in the graduation rate calculation of the current graduating class, or in the following year's graduation rate calculation, based on a district's reporting practice.

What Happens if a Student Was Reported as a Dropout at Some Point During His or Her High School Years and the School Subsequently Receives Information that the Student Transferred into Another Educational Program? Does That Student Affect the Graduation Rate For the Class of Which He/She Was Originally a Member? No. If the high school has documentation of the student's transfer into another educational program or completion of an educational program, then an adjustment may be made to the membership base used to calculate the graduation rate. These students are not reported as completers from the district, they are taken out of the membership base of the school and treated as if they transferred from the school. However, the dropout rate for the year in which they were reported as a dropout remains unchanged.

What Is the Graduation Rate? The graduation rate is a cumulative or longitudinal rate which calculates the number of students who actually graduate as a percent of those who were in membership and could have graduated over a four-year period (i.e., from Grades 9-12).

A graduation rate will be reported for each graduating class (i.e., the Class of 1998). The rate is calculated by dividing the number of graduates by the membership base. The membership base is derived from end-of-year count of eighth graders four years earlier (i.e., in the spring of 1994), and adjusted for the number of students who have transferred into or out of the district during the years covering grades 9 through 12.

What Is the Completer Rate? The Completer Rate is also a cumulative or longitudinal rate which calculates the number of students who graduate, receive certificates or other designations of high school completion. It is also calculated as a percent of those who were in membership and could have graduated or completed over a four-year period (i.e., from Grades 9-12).

Information needed to calculate graduation and completer rates is available from the dropout data collection system initiated in the 1987-88 school year.

What Is Meant By the "Class of 1998"? Graduation rates and completer rates will be reported for a particular class. The Class of 1998 includes students who graduated in the spring and summer of 1998. It may include students who completed high school in three years, four years or longer.

SOURCE OF INFORMATION

Data published in this report were obtained from all Colorado public schools on CDE Form 2, End of Year Pupil Membership, Dropouts and Graduates Report. Data collected on these forms were then summarized for reporting in the various formats.

Data for alternative schools in some tables are reported separately. This provides additional information for those districts' schools that are established to give students who are dropouts or potential dropouts an alternative to the traditional program. The alternative schools' data also includes those Second Chance Programs operated by districts and Boards of Cooperative Services. However, it does not include any educational programs for dropouts that are incorporated as part of the traditional high school program.
